LOCATION

Kozani

KOZANI

Kozani is a city in northern Greece. It is located in the western part of Macedonia, in the northern part of the Aliakmonas river valley. The city lies 710 meters above sea level, 15 kilometers north-west of the artificial lake Polyfytos, 120 km south-west of Thessaloniki. Its population is estimated at about 50,000. The climate of the area is continental with cold and dry winters, and hot summers.

HOW TO REACH KOZANI

Kozani is a transport node between Central Macedonia, Thessaly and Epirus. Kozani is situated near the Egnatia Highway, which connects the coast of the Ionian Sea with Thessaloniki and Turkish borders.

Airplane

The most convenient travel option for reaching Kozani is via Thessaloniki Airport (SKG). From Thessaloniki, participants can take a direct bus to Kozani, which offers a reliable and frequent connection. An alternative route is through Athens International Airport. However, please note that bus connections between Athens and Kozani are less frequent, making this a less efficient option.

Bus

Kozani has regular KTEL bus services to Athens, Thessaloniki, and most other major cities in Greece.
